GPS PERSONAL TRACKER 4G

Telecare made accessible to everyone

Personal Tracker 4G is a portable 4G device designed to enhance safety and control.
It connects quickly and tracks people or moving objects, detecting and transmitting their location coordinates.

The device enables precise **geolocation** in the event of an alarm. By simply pressing the alarm button, or in case of a fall, the user can be located and communicate directly through the device's built-in speakerphone.
Personal Tracker 4G is extremely compact, has low operating costs, and is easy and intuitive to use.
